Effective Term: Fall  Please note: For students to be admitted to a new degree, minor, certificate or concentration, the program must be fully approved, entered into Banner, and published in the University Catalog.

### Justification: (attach separate document if necessary)

The Writing intensive requirement for Medical Laboratory students is incorporated into BIOL 453 Immunology Lab. The Biology Program felt that this was an inappropriate place for such a requirement as it was not effectively taught. In order to remedy this problem the Biology Program is suggesting that the Writing Intensive requirement be removed from BIOL 453 and receive its own class.

Scientific Writing (MLAB 300) will fulfill the University's writing intensive requirement as well as prepare Medical Laboratory Science Students for the types of writing that they will encounter in the industry including but not limited to writing Resumes, Grants, Cover letters, and etc.
