### **FOR ALL COURSES**

Course Number and Title: Applications of GIS

### **FOR MODIFIED COURSES**

- Summary of the Modification: We're converting this course into an omnibus applications course, because there are a number of different applications that our faculty are interested in offering that involve more than just
- Text before Modification (title, repeat status, catalog description, etc.): Socioeconomic Applications of GIS, non-repeatable
- Text after Modification (title, repeat status, catalog description, etc.): Systematic Applications of GIS, Repeatable within term
- Reason for the Modification: The professor who proposed the initial course is gone, and we wish to use this number in a broader manner than originally envisioned. In particular we hope to cooperate with our colleagues in ESP, who have asked us to consider more intentional training for their students.
