**Degree(s):**

**School(s):****Catalog****Description:**

Basic techniques for collecting and recording spatial field data, including topographic maps, compass, transit, alidade, and geographic positioning systems. Includes field work.

**Justification:**

What: Adding GEOL 103 to GEOL 101. Creating an equivalency with GEOL 303

Why: The previously 4-credit GEOL 101 has been decoupled into GEOL 101 (3cr), GEOL 103 (1cr). GEOL 303 is crosslisted with GGS 308. Several GGS students in the past years have taken the GEOL 303 section, and this equivalency will allow the course to properly populate into Degree Works.

**Does this course cover material which crosses into another department?** No
