Degree(s):

Exclude

Non-Degree Undergraduate Degree students may not enroll. (SCRRDEG_NO_NDU)

School(s):

Catalog

Description:

Presents the trans-disciplinary discipline of conservation medicine, the study of relationships between organism and ecosystem health and environmental conditions. Topics include infectious and noninfectious diseases, pathogens, processes, and impacts on human, biotic, and ecosystem health, and how to address the consequences of diseases to populations and ecological communities. Notes: This course will co-meet with undergraduate-level students. Undergraduate students in this course will have separate (shorter) reading and writing assignments and will be graded according to a different rubric than the graduate students.

Justification:

What: Changing the title of the course to match the ESP equivalent.

Why: This is a cross listed class and ESP has changed the name so we are matching the name change

Does this course cover material which crosses into another department? Yes

**Impacted
Departments:**

Department

Department
ESP - Environmental Science & Policy
