Catalog**Description:**

Original or compilatory work evaluated by committee of three faculty members.

Justification:

The math department will be filing forms to reduce the requirement for MATH 799 from 6 credits to 3 credits, and to introduce MATH 798 as typical (but not required) first semester toward a thesis. MATH 798 is appropriate as a first semester course toward writing an MS thesis, rather than MATH 799, because it allows students to earn credit in the course even if they decide not to pursue the thesis the subsequent semester.

We would like to recommend to students that they do 3 credits of MATH 798 before taking MATH 799.

Does this course cover material which crosses into another department?

No
