### **FOR ALL COURSES** (required)

Course Number and Title: **ASTR 999 Doctoral Dissertation**

Date of Departmental Approval: **02/23/2017**

### **FOR MODIFIED COURSES** (required if modifying a course)

- Summary of the Modification: **Change allowed number of ASTR 999 credits.**
- Text before Modification (title, repeat status, catalog description, etc.): **N/A**
- Text after Modification (title, repeat status, catalog description, etc.): **N/A**
- Reason for the Modification:

Currently the catalog states that a Physics PhD student must take no more than 12 credits of ASTR 998 and that the total number of ASTR 998 + ASTR 999 credits must be 24, which implies that 12 credits of ASTR 999 are required. We requesting to change the requirement to be a minimum of 3 credits of ASTR 999 while keeping requirement of a total number of ASTR 998 + ASTR 999 credits of 24 in a separate program change document. This change will allow students to skip taking ASTR 998, Dissertation Proposal. The reason is that many students in our PhD program take several semesters of ASTR 796 during which they may have do background research on a thesis topic and they may complete the thesis proposal over the summer term. In this case, the student may not need to take ASTR 998 credits before they are ready to advance to candidacy and take ASTR 999.
