FOR ALL COURSES (required)

Course Number and Title: **PHYS 998 Doctoral Dissertation Proposal**

Date of Departmental Approval: **02/23/2017**

FOR MODIFIED COURSES (required if modifying a course)

- Summary of the Modification: **Change allowed number of PHYS 998 credits.**
- Text before Modification (title, repeat status, catalog description, etc.): **N/A**
- Text after Modification (title, repeat status, catalog description, etc.): **N/A**
- Reason for the Modification:

Currently the catalog states that a Physics PhD student must take no more than 12 credits of PHYS 998 and that the total number of PHYS 998 + PHYS 999 credits must be 24. We are requesting to change the requirement to be a minimum of 3 credits of PHYS 999 and keeping requirement of a total number of PHYS 998 + PHYS 999 credits of 24 in a separate program change document. This change will allow students to take up to 21 credits of PHYS 998. The reason for allowing up to 21 credits of PHYS 998 is that some students in our PhD program may need to take up to 21 credits of PHYS 998 before they have completed all of their requirements for advancement to candidacy. This can occur if a student switches advisors, for example. This can also occur when a student is working on their degree part-time and is taking PHYS 998 along with other required courses. With this change, we still meet the minimum requirements specified by the university, which is a total of 12 credits of 998+999 with a minimum of 3 credits of 999.
