

Termination from the Major – Department of Chemistry and Biochemistry

To ensure the academic integrity of the Chemistry and Biochemistry undergraduate major program, students are expected to maintain a satisfactory level of academic performance.

No Chemistry, math, or science course that is required for the major may be attempted more than three times. Students who do not successfully complete such a course with a grade of C or better by the third attempt may be terminated from the major.

Students who have been terminated from the Chemistry major may not register for a Chemistry course without the permission of the Department of Chemistry and Biochemistry.

A student may not declare a major in Chemistry if the student has previously met the termination criteria for the major at any time, regardless of what the student's major was at the time the courses were taken.

Approved by the faculty, Nov. 11, 2016

Amended Nov. 10, 2017
