Registrar's Office Use Only - Registration Restrictions:

Field(s) of Study: Exclude  
Biology Majors cannot enroll. (SCRRMAJ\_NO\_BIOL\_MAJOR)

Class(es):

Level(s):

Degree(s):

School(s):

**Catalog Description:** Introduction to microbial cell structure, physiology, and pathogenicity. Emphasizes control of microorganisms, host-parasite interactions including immunology, and viral and bacterial pathogens. Note: not available for Biology major credit or to students who have BIOL ~~305 213, 302, 305, or 418.~~

**Justification:** Removed "not available for Biology major credit or to students who have BIOL 213, 302, 305, or 418. and now it's just BIOL305. Students may have wanted to take more biology. BIOL305 is the biology microbiology course so you can not take both for credit. Similar material is taught in both.

**Does this course cover material which crosses into another department?** No
