Letter	Concentration(s):	
	Associated Concentrations	Registrar's Office Use Only: Concentration Code
1	Microbiology and Infectious Disease	MID
2	Molecular Biology	MOB
3	Neuroscience	NEUR
4	Evolutionary Biology	EB
5	Translational and Clinical Research	TCR

Registrar/IRR Use Only – Concentration CIP Code

College/School: College of Science

Department / Academic Unit: School of Systems Biology

Jointly Owned Program? No

Justification

Neuroscience Concentration

- Adding NEUR 612 as a option
- Correcting footnotes

-Adding BIOL 682 to all concentrations.

Total Credits Required: Total credits: 30

Registrar's Office Use Only - Program Code: SC-MS-BIOL

Registrar/IRR Use Only – Program CIP Code

Admission

Requirements:

Admissions

University-wide admissions policies can be found in the [Graduate Admissions Policies](#) section of this catalog.

To apply for this program, please complete the [George Mason University Admissions Application](#).

While each applicant's qualifications are reviewed as a whole, the following are provided: Applicants to the program must have a bachelor's degree in biology or its equivalent. Additionally, all MS concentrations require a GPA of 3.00 in biology coursework or in the last 60 credits of undergraduate study. Students must also submit three letters of recommendation and scores on the GRE general exam. Exam scores should be in the 45th percentile or above. Admission is contingent on acceptance by a faculty research advisor.

Microbiology and Infectious Disease (MID) Concentration

Students who choose the Microbiology and Infectious Disease Concentration must have a lecture and lab course in microbiology and a lecture course in biochemistry.

Translational and Clinical Research (TCR) Concentration

Students who choose the Translational and Clinical Research Concentration may submit MCAT scores in place of GRE general exam scores.

Evolutionary Biology (EB) Concentration

Students who choose the Evolutionary Biology Concentration must also submit a personal statement/statement of interest consistent with at least one faculty member's research program. GRE score should be approximately 303.

Program-Specific Policies:

Policies

For policies governing all graduate programs, see [AP.6 Graduate Policies](#).

Degree Requirements:

Students should refer to the [Admissions & Policies](#) tab for specific policies related to this program.

Program of Study

The faculty advisor and the student work together to develop a program of study that best fits the student's background and interests. The student must submit a program of study to the program director for approval within the first 12 credits of coursework. By the end of the second semester of coursework, students will form a graduate committee made up of three faculty members. At least two committee members must be faculty in the [School of Systems Biology](#).

Concentration Options

Candidates for the Biology, MS focus their study in one of five approved concentrations below, or by completing coursework for the program in biological sciences in an area of study chosen in consultation with the student's advisor and program director.

Research Options

Students have the option to complete a 3-6 credit master's thesis ([BIOL 799](#) Thesis) or a 1-3 credit research project ([BIOL 798](#) Master's Research Project). In accordance with [AP.6 Graduate Policies](#), the same quality of work is expected of students regardless of which option they choose.

- Thesis: In general, the MS thesis is most appropriate for students planning or considering a research career. Students pursuing the thesis option must write a formal thesis that meets the requirements of the school and must defend their thesis and present their results in a public seminar.
- Research Project: The MS project is most appropriate for students who have scheduling commitments, such as a full-time job, that may preclude performing a complete series of laboratory experiments. Students pursuing the project option must successfully complete written and oral comprehensive exams.

Course List

Code	Title	Credits
Select a Master's Thesis or Research Project		
BIOL 799	Thesis	3-6
BIOL 798	Master's Research Project	1-3

MS without Concentration

Program in Biological Sciences

Course List

Code	Title	Credits
Cell Biology		
BIOL 682	Advanced Eukaryotic Cell Biology	3
Research Methodology		
BIOL 690 or BIOS 702	Introduction to Graduate Studies in Biology Research Methods	1-3
Seminar		
BIOL 692	Seminar in Biology	2

Code	Title	Credits
or BIOL 695	Seminar in Molecular, Microbial, and Cellular Biology	
Research		1-6
Select one from the following:		
BIOL 798	Master's Research Project	
BIOL 799	Thesis (3-6 credits)	
Electives 1		16-23
Select 16–23 credits of electives in BIOL, BIOS, or related areas as approved by the student's advisor and the program director.		
BIOL 508	Selected Topics in Animal Biology 2	
BIOL 553	Advanced Topics in Immunology	
BIOL 566	Cancer Genomics	
BIOL 568	Advanced Topics in Molecular Genetics	
BIOL 575	Selected Topics in Genetics	
BIOL 579	Molecular Evolution and Conservation Genetics	
BIOL 583	General Biochemistry	
BIOL 585	Eukaryotic Cell Biology Laboratory	
BIOL 793	Research in Biology	
BIOS 740	Laboratory Methods in Functional Genomics and Biotechnology	
BIOS 741	Genomics	
BIOS 742	Biotechnology	
BIOS 743	Genomics, Proteomics, and Bioinformatics	
BIOS 744	Molecular Genetics	
BIOS 767	Molecular Evolution	
Total Credits:		30

1These courses are provided as suggestions only; this is not intended to be a comprehensive list of elective options. Note that two courses covering substantially similar topics may not both be counted in the student’s program of study. Students should consult their faculty research advisor or the graduate program coordinator when preparing a program of study.

2Suggested section topics: Research and Development in Biotechnology Labs; Biology of Obesity and Weight Loss. Other relevant topics may only be applied toward the degree with advisor approval.

MS with Concentration in Microbiology and Infectious Disease (MID)

Course List

Code	Title	Credits
------	-------	---------

Code	Title	Credits
Cell Biology		3
<u>BIOL 682</u>	Advanced Eukaryotic Cell Biology	
Research Methodology		1-3
<u>BIOL 690</u>	Introduction to Graduate Studies in Biology	
or <u>BIOS 702</u>	Research Methods	
Core Biology		12-13
Select four courses from the following:		
<u>BIOL 553</u>	Advanced Topics in Immunology	
<u>BIOL 563</u>	Virology	
<u>BIOL 583</u>	General Biochemistry	
<u>BIOL 669</u>	Pathogenic Microbiology	
<u>BIOL 715</u>	Microbial Physiology	
<u>BINF 739</u>	Topics in Bioinformatics (Topic: Computational Analysis: Viral Genome)	
Seminar		2
<u>BIOL 695</u>	Seminar in Molecular, Microbial, and Cellular Biology	
Research		1-6
Select one from the following:		
<u>BIOL 798</u>	Master's Research Project	
<u>BIOL 799</u>	Thesis (3-6 credits)	
Electives 1		3-11
Select 3-11 credits from the following:		
<u>BIOL 506</u>	Selected Topics in Microbiology 2	
<u>BIOL 553</u>	Advanced Topics in Immunology	
<u>BIOL 560</u>	Infectious Diseases of Wildlife	
<u>BIOL 564</u>	Techniques in Virology	
<u>BIOL 580</u>	Computer Applications for the Life Sciences	
<u>BIOL 685</u>	Emerging Infectious Diseases	
<u>BIOL 691</u>	Current Topics in Biology 3	
<u>BIOL 718</u>	Techniques in Microbial Pathogenesis	
<u>BIOS 710</u>	Current Topics in Bioscience 2	
<u>BIOS 743</u>	Genomics, Proteomics, and Bioinformatics	
Total Credits:		30

1Other relevant graduate-level coursework may be selected in consultation with the advisor.

2 Credit for these courses may only be applied toward the degree if the course topic is relevant to microbiology and infectious diseases and approved by the advisor.

3 Suggested section topic: Vaccines. Other relevant topics may only be applied toward the degree with advisor approval.

MS with Concentration in Molecular Biology (MOB)

Course List

Code	Title	Credits
Cell Biology		3
BIOL 682	Advanced Eukaryotic Cell Biology	
Research Methodology		1-3
BIOL 690	Introduction to Graduate Studies in Biology	
or BIOS 702	Research Methods	
Core Biology		12-13
Select 12-13 credits from the following:		
BIOL 568	Advanced Topics in Molecular Genetics	
or BIOS 744	Molecular Genetics	
BIOL 579	Molecular Evolution and Conservation Genetics	
or BIOS 767	Molecular Evolution	
BIOL 583	General Biochemistry	
BIOL 682	Advanced Eukaryotic Cell Biology	
BIOS 742	Biotechnology	
NEUR 651	Molecular Neuropharmacology	
Bioinformatics		3
Select one from the following:		
BIOL 580	Computer Applications for the Life Sciences	
BINF 630	Bioinformatics Methods	
BINF 634	Bioinformatics Programming	
Molecular Techniques		2-7
Select 2-7 credits from the following:		
BINF 739	Topics in Bioinformatics	
BIOL 585	Eukaryotic Cell Biology Laboratory	
BIOL 678	Cell-Based Assays	
BIOS 716	Methods in Evolutionary Biology	
BIOS 740	Laboratory Methods in Functional Genomics and Biotechnology	

Code	Title	Credits
Special topics courses, such as BIOL 575 or BIOL 691 , may also be approved for this requirement by the program director, but only in semesters in which they are primarily a laboratory course of at least two credits with substantial content of techniques in molecular biology.		
Seminar		2
BIOL 695	Seminar in Molecular, Microbial, and Cellular Biology	
Research		1-6
Select one from the following:		
BIOL 798	Master's Research Project	
BIOL 799	Thesis (3-6 credits)	
Electives 1		0-6
Select 0-6 credits of electives in BIOL, BIOS, or related areas as approved by the student's advisor and the program director.		
BIOL 553	Advanced Topics in Immunology	
BIOL 562	Personalized Medicine	
BIOL 566	Cancer Genomics	
BIOL 568	Advanced Topics in Molecular Genetics 2	
BIOL 575	Selected Topics in Genetics	
BIOL 579	Molecular Evolution and Conservation Genetics	
BIOL 583	General Biochemistry	
BIOL 585	Eukaryotic Cell Biology Laboratory	
BIOL 666	Human Genetics Concepts for Health Care	
BIOL 682	Advanced Eukaryotic Cell Biology	
BIOL 691	Current Topics in Biology	
BIOL 793	Research in Biology	
BIOS 740	Laboratory Methods in Functional Genomics and Biotechnology	
BIOS 741	Genomics	
BIOS 742	Biotechnology	
BIOS 743	Genomics, Proteomics, and Bioinformatics	
BIOS 744	Molecular Genetics	
BIOS 767	Molecular Evolution	
Total Credits:		30

1These courses are provided as suggestions only; this is not intended to be a comprehensive list of elective options. Note that two courses covering substantially similar topics may not both be counted in the student's program of study. Students should consult their faculty research advisor or the graduate program coordinator when preparing a program of study.

2Suggested section topic: Epigenetics. Other relevant topics may only be applied toward the degree with advisor approval.

MS with Concentration in Neuroscience (NEUR)

Course List

Code	Title	Credits
Cell Biology		3
BIOL 682	Advanced Eukaryotic Cell Biology	
Research Methodology		1-3
BIOL 690	Introduction to Graduate Studies in Biology	
or NEUR 702	Research Methods	
Core Neuroscience		12-13
Select 12-13 credits from the following:		
BINF 705	Research Ethics	
or NEUR 612	Neuroethics	
NEUR 601	Developmental Neuroscience	
NEUR 602	Cellular Neuroscience	
NEUR 603	Mammalian Neuroanatomy	
NEUR 634	Neural Modeling	
NEUR 651	Molecular Neuropharmacology	
NEUR 701	Neuroscience Laboratory	
Seminar		2
Select 2 credits from the following:		
BIOL 695	Seminar in Molecular, Microbial, and Cellular Biology	
BIOS 704	Topics in Biosciences	
NEUR 709	Neuroscience Seminars	
Statistics		3-4
Select 3-4 credits from the following:		
NEUR 592	Special Topics in Neuroscience 1	
ECE 528	Introduction to Random Processes in Electrical and Computer Engineering	
PSYC 611	Advanced Statistics	
STAT 535	Analysis of Experimental Data	
STAT 544	Applied Probability	
STAT 554	Applied Statistics I	
Research		1-6

Code	Title	Credits
Select one from the following:		
BIOL 798	Master's Research Project	
BIOL 799	Thesis (3-6 credits)	

Electives 0-8

Select 0-8 credits, suggested electives include but are not limited to the following:

BIOL 508	Selected Topics in Animal Biology 2
BIOL 566	Cancer Genomics
BIOL 568	Advanced Topics in Molecular Genetics
BIOL 583	General Biochemistry
BIOL 666	Human Genetics Concepts for Health Care
BIOL 682	Advanced Eukaryotic Cell Biology
BIOL 691	Current Topics in Biology 2
BINF 630	Bioinformatics Methods
BINF 705	Research Ethics
BIOS 741	Genomics
BIOS 742	Biotechnology
BIOS 743	Genomics, Proteomics, and Bioinformatics
BIOS 744	Molecular Genetics
NEUR 592	Special Topics in Neuroscience 3
NEUR 689	Topics in Neuroscience 3

Total Credits: 30

1 Suggested section topics: MATLAB for Brain, Biological, and Cognitive Scientists; or Behavioral Chemistry. Other relevant topics may only be applied toward the degree with advisor approval.

2 Suggested section topic: Biology of Obesity and Weight Loss. Other relevant topics may only be applied toward the degree with advisor approval.

3 Suggested section topics include: Neurobiology of Decision Making; MATLAB Brain, Biology, and Cognitive Scientists; Glutamergic Systems; Motor Control Rehab; or Scientific Writing and Presentations. Other relevant topics may only be applied toward the degree with advisor approval.

~~4 Suggested section topics include: Glutamergic Systems; Motor Control Rehab; Scientific Writing and Presentations. Other relevant topics may only be applied toward the degree with advisor approval.~~

MS with Concentration in Evolutionary Biology (EB)

Course List

CHEM 662	Modern Methods of Drug Discovery	
CHEM 665	Protein-Protein Interactions: Methods and Applications	
CHEM 796	Directed Reading and Research	
NEUR 651	Molecular Neuropharmacology	

Total Credits: 30

- 1 Other relevant graduate-level coursework may be selected in consultation with the advisor.
- 2 Credit for this course may only be applied toward the degree if the course topic is relevant to the concentration or research topic and approved by the advisor.
- 3 Suggested course topic: Biology of Obesity and Weight Loss. Other relevant topics may only be applied toward the degree with advisor approval.
- 4 Suggested course topic: Creativity and Innovation. Other relevant topics may only be applied toward the degree with advisor approval.

Curriculum Notes

- For students concurrently enrolled in the [Advanced Biomedical Sciences Graduate Certificate](#), contact your advisor for details regarding:
 - BMED course credit that may be counted towards this concentration
 - Meeting requirements for graduate certificates and requirements for master's degrees

Plan of Study:

Additional Program Information

This information is required by the Office of Accreditation and Program Integrity.

Courses offered via distance (if applicable):

What is the Both Face-to-Face and Distance

**primary delivery
format for the
program?**

Does any portion of this program occur off-campus?

No

Are you working with a vendor / other collaborators to offer your program?

No

**Related
Departments**

**Could this program prepare students for any type of professional licensure, in
Virginia or elsewhere?**

No

Are you adding or removing a licensure component?

No

Additional SCHEV & SACSCOC Information

Are you changing the total number of credits required for this program?

Are you changing the delivery format in any way (e.g adding an online option)?

Are you adding/removing a licensure option which was approved by SCHEV?

Will any portion of this program be offered at an off-campus location?

Are you adding significant new content areas to the program?

Will this program change affect any specialized accreditation?

Green Leaf Program Designation

Is this a Green Leaf program? No

Does this program cover material which crosses into another department?

No
