Accelerated  
Description/Dual  
Degree  
Description:

# Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration)

## Overview

---

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a [BA](#) or [BS in Chemistry](#) (degree without concentration) and an [MEd in Curriculum and Instruction](#) (concentration in secondary education chemistry) in an accelerated time frame after completion of 149 credits. See [AP.6.7 Bachelor's/Accelerated Master's Degree](#) for policies related to this program.

This accelerated option is offered jointly by the [Department of Chemistry and Biochemistry](#) and the [Graduate School of Education](#).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see [AP.6 Graduate Policies](#).

~~Application Requirements Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines.~~ **Accelerated Option Requirements**

Total Credits 12

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.
