Are you completing this form on someone else's behalf?

No

Effective Term: Spring 2020

Subject Code: CONS - Conservation Studies

Course Number:
404

Bundled Courses:

Is this course replacing another course? No

Equivalent Courses:

Catalog Title: Biodiversity Monitoring

Banner Title: Biodiversity Monitoring

Will section titles vary by semester? No

Credits: 4

Schedule Type: Lecture w/Lab

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 3

Repeatable:

May be only taken once for credit, limited to 3 attempts (N3)

Max Allowable Credits:

12

Default Grade Mode: Undergraduate Regular

Recommended Prerequisite(s):

Recommended Corequisite(s):

Required Prerequisite(s) / Corequisite(s) (Updates only):

BIOL 308, EVPP 301 or 302, BIOL/EVPP 377, INTS 401, or any upper-level course in the biological sciences or a related discipline, or permission of instructor.

Registrar's Office Use Only - Required Prerequisite(s)/Corequisite(s):

And/Or	(Course/Test Code	Min Grade/Score	Academic Level)	Concurrency?
		BIOL 308	C	UG		
Or		EVPP 301	C	UG		
Or		EVPP 302	C	UG		
Or		BIOL 377	C	UG		
Or		EVPP 377	C	UG		
Or		INTS 401	C	UG		

Registration Restrictions (Updates only):

Registrar's Office Use Only - Registration Restrictions:

Catalog Description:

Covers the assessment, monitoring and conservation of species and habitats as well as the tools for sampling species and habitats and the evaluation of those tools' effectiveness. Students use this practical, hands-on knowledge to prepare a series of reports and recommendations for future work. Students also learn to analyze sampling data in R. This practical, hands-on knowledge is used to prepare plans and recommendations for future work.

Justification:

Description: Removed - Students also learn to analyze sampling data in R.

Does this course cover material which crosses into another department? No

Green Leaf Course Designation

The proposed course is requesting (choose one):

Sustainability-related designation

Below, include a brief statement regarding how this course meets either the “sustainability focused” or “sustainably related” criteria.

Sustainability-related courses help build knowledge about a component of sustainability or introduce students to sustainability concepts during part of the course. They may complement sustainability-focused courses by providing students with in-depth knowledge of a particular aspect or dimension of sustainability (such as the natural environment) or by providing a focus area (such as renewable energy) for a student’s sustainability studies, or they may broaden students’ understanding of sustainability from within different disciplines.
