Academic Themes:

Justification

1. Students can currently satisfy part of the EVSS core requirement for Business and Public Policy with ECON 105 or ECON 100. We propose to include ECON 103 as an option for satisfying this requirement. This will be especially beneficial to transfer students who come in with ECON 103.
2. EVPP 110 and 111 are core requirements for the EVSS BA. ESP is dropping those two courses and replacing with EVPP 108/109 & EVPP 112/113.
3. Students currently must take INTS 390 (International Internship) or INTS 490 (Internship) to

satisfy a EVSS core requirement. We propose to add the following courses as options for completing this requirement (all at minimum of 3 credits): INTS 395, INTS 498, EVPP 395, EVPP 494. The rationale is that unpaid internships can be burdensome for students who must also work to earn income. The additional courses will give students options for doing supervised research in lieu of an internship and create greater flexibility for fulfilling degree requirements.

4. The remainder of the proposed changes make changes to existing concentrations in the major. In all cases but one, we are simply adding relevant courses to the lists of pre-approved electives for various concentrations within the EVSS major. The lists of concentration electives are being updated. This update also includes adding special topics courses offered in SIS and ESP with the caveat that the course must be in a topic relevant to the concentration's focus. We would like this language to appear in the catalog where it lists each concentration's electives.

5. For the Environmental Policy and Economics concentration, we also propose to eliminate one course (3 credits) from the concentration core and require an additional 3 elective credits (was 6, will be 9) in order to give students more flexibility in tailoring the concentration to their specific interests. Two existing elective choices will be deleted from the list.
