School(s):

Catalog

Description:

Vertebrate Paleontology explores the evolution of vertebrates from the early Paleozoic to Recent. The course will cover the systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions will include fishes, early tetrapods & amniotes, dinosaurs, birds and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. A weekend field trip is included.

Justification:

Updating changed course numbers in the prerequisites for accuracy: BIOL 303 to BIOL 300, and BIOL 104 to BIOL 102.

Does this course cover material which crosses into another department? No
